

EBPT用語集 カテゴリー別一覧(英語)

エビデンス 関連用語
clinical decision making
critical appraisal
evidence
evidence-based physical therapy
medical guideline
PEDro scale
PEDro physiotherapy evidence database
primary source
secondary source
systematic review
the Cochrane collaboration

研究法 関連用語	
analytical study	longitudinal study
baseline	matching
basic study	observational study
bias	outcome
blinding	PICO
case control study	prospective randomized open blinded
case reports statement	end-point study
case series study	prospective study
clinical question	publication bias
clinical study	quantitative data
cohort study	quasi-experimental study
concealment	randomized block design
conflict of interest	randomized controlled trial
confounding	reliability
CONSORT Statement	Reporting guideline
construct validity	research proposal
criterion-related validity	research question
crossover trials	retrospective study
cross-sectional study	significance level
descriptive study	skewness
dropout	study design
endpoint	surrogate endpoint
event	the Preferred Reporting Items for Systematic Reviews and Meta-analyses Statement
experimental study	
gold standard	the Strengthening the Reporting of Observational Studies in Epidemiology Statement
latin square design	
likelihood ratio	validity

統計 関連用語
absolute risk
absolute risk reduction
alternative hypothesis
box and whisker plots
confidence interval
covariate
Cronbach's coefficient alpha
cutoff value
explanatory variable (independent variable)
frequency distribution
general linear model (GLM)
interaction
inter-rater reliability
intraclass correlation coefficients
intra-rater reliability
Kappa coefficient
kurtosis
limits of agreement (LOA)
main effect
mean and median
multiple correlation coefficient
normal distribution
null hypothesis
number needed to treat
object variable (dependent variable)
odds ratio
paired data
Pearson's product moment correlation coefficient
power of test
probability
p-value
qualitative data
quartile
receiver operating characteristic curve
relative risk
relative risk reduction
sample size
scale
sensitivity
significant difference
Spearman's rank correlation coefficient
specificity
standard deviation (sd)
statistical analysis
type I error (α error)
type II error (β error)
unpaired data

統計解析 関連用語
analysis of covariance (ANCOVA)
analysis of variance
analysis of variance for split-plot factorial design
Bland-Altman analysis
Bonferroni correction
canonical correlation analysis
chi-square test
cluster analysis
correlation
Cox proportional hazard model
Dunnett's multiple Comparison procedure
F test
factor analysis
Friedman's test
intention to treat analysis
Kolmogorov-Smirnov test
Kruskal-Wallis test
logistic regression analysis
log-rank test
Mann-Whitney U test
meta-analysis
minimal detectable change 95
multiple comparison procedure
multiple regression analysis
multivariate analysis
nonparametric method
nonparametric multiple comparison procedure
one-way analysis of variance (one-way ANOVA)
parametric method
principal component analysis
rejection test
repeated measure analysis of variance
Scheffe's multiple comparison procedure
Shapiro-Wilk test
statistical test of hypothesis
subgroup analysis
survival analysis
t test
test for equality of variance
Tukey's multiple comparison procedure
two-way analysis of variance (two-way ANOVA)
Welch test
Wilcoxon signed-rank test
